OURCE	25X1X	
1.	Meissen (N 52/F 09) quartered a unit whose personnel wore red-bordered black	
	epaulets, some with artillery insignia. Since the number of windows lighted	
	in the quarters at nightfall was small and since little activity was observed, source estimated the troops there at about 300. From 100 to 130 soldiers were	
	seen in the billeting area on 18 April. * Poldiers wearing black-bordered black	
	epaulets piled large quantities of lumber near the obstacle course and near	
	the mess building. Sumber was hauled on Soldiers guarding 25 the lumber yard wore black-bordered black epaulets while gate guards and	5X1C
	sentries on the watchtower wore red-bordered black enaulets. Motor wehi dea	051/4

Comment. The unidentified AAA Regt, possibly the 216th, of the 9th Tank Div is carried in the Meissen-Zaschendorf barracks installation.

The present report indicates that components of the regiment may have moved to the Koemigsbrucck troop training grounds, together with other elements of the 9th Tank Div which began leaving Riesa and Oschatz for Koemigsbrucck in mid-April 1951.

25X1A

observed in the barracks installation in Zaschendorf for several years. At the end of 1949, one source reported them as belonging to a signal unit. However, the present report indicates that they belong to an engineer unit. It cannot be determined whether the unit is a component of the 1st Assault Engr Regt of the First Gds Mecz Army whose location is unknown or an element of the unidentified engineer battalion of the 9th Tank Piv which has been carried to date at Oschatz airfield.
